

ESI

WE'VE GOT YOU **COVERED**

Trusted by the Mining Sector

ESI is a leading provider of geosynthetic materials and installation services for the mining industry. We have the expertise, capacity and crew flexibility to manage even the largest of deadline driven projects for copper, lithium, gold, phosphate, silver mines and more!

ESI's stellar safety record, essential MSHA qualifications and experienced installer workforce combine to make us one of the most sought after and trusted providers.

How we cover Mining:

- Geosynthetic Lining Systems
- Heap Leach Pad Liners
- Tailing Impoundments
- Solutions Ponds
- Conveyance Ditches

We handle more geosynthetics than anyone!
Over 2.5 Billion SF of Experience (and counting).

Safety, Quality and Value You Can Trust

Decades of repeat customer engagement and consistent business growth are proof of our commitment to developing and maintaining valued customer and vendor relationships.

As one of the largest buyers of geosynthetics in the nation, we partner with the most reputable material manufacturers to ensure the highest quality performance and best overall value for your project. We're dedicated to delivering a level of quality, efficiency and safety that exceed our customer demands.

That's what it means when we say:
"We've Got You Covered"
